- Article : - CELL THERAPY – TRUST IN THE Forces of Nature

The development of the art of healing – and this is something that many scientific experts agree on – clearly points in the direction of bio-medicine.

Cell Therapy is a treatment that, by using fetal and youthful cell material into your system induces general and revitalizing effects on your organism.

End of 2006 CLINIQUE PAUL NIEHANS moved from the Hôtel des Trois Couronnes, [www.hoteltroiscouronnes.ch](http://www.hoteltroiscouronnes.ch), [info@hotel3couronnes.ch](mailto:info@hotel3couronnes.ch), close to the beautifully renovate Hôtel du Lac, [www.hoteldulac-vevey.ch](http://www.hoteldulac-vevey.ch), [info@hoteldulac-vevey.ch](mailto:info@hoteldulac-vevey.ch) on the border of Lake of Geneva in front of the Yacht Harbour with magnificent view over the Lake and the Swiss and French Alps.

Our secretarial desk and our qualified nursing staff will offer their smiles and their very special attentive care to you, so that your stay will be pleasant and unforgettable.

Naturally, we are at your entire disposal for any further information you may require and for replying to any question you would like to ask.

We are looking forward to hearing from you in the very near future.

Your sincerely

CLINIQUE PAUL NIEHANS

Dr. Edouard Bärtschi  
Director and Medical Supervisor
